Dear Akron Police Department Credit Union Member:

For many years now, The Akron Police Department Credit Union has grown successfully to serve its member-owners. Our growth has occurred one member at a time by focusing on providing competitive financial products with a high level of service to each one of you. Now we prepare to embark on the next chapter in our history.

The Boards of Directors of The Akron Firefighters Credit Union and The Akron Police Credit Union are working together to facilitate a merger between the two credit unions. This merger will create a credit union that is much stronger and better able to service its members well into the future.

After careful consideration, both boards of directors have determined that this partnership will be mutually beneficial to all of the members of both credit unions. The world of banking and financial services continues to evolve, and merging will create the infrastructure necessary to meet the increasing needs and demands for enhanced technology and convenient services. Both organizations have a history of providing outstanding service to their membership and we can assure you that high level of member service will continue.

Once we receive final approval from the State of Ohio Division of Financial Institutions, more details will become available.

Should you have any questions about this pending merger, please feel free to contact us at your convenience. We will do our best to address any questions and concerns. In closing, we appreciate your support and loyalty as a member-owner of Akron Police Department Credit Union and we look forward to carrying that forward with this exciting new opportunity!

Sincerely

Akron Police Department Credit Union Board of Directors
